Full Stack Software Developer

Experienced in Flask, Node and JavaScript based programming with a background in Java. I possess strong team building and critical thinking skills that help well structured companies achieve their goals, benefit the synergy of our team, and meet deadlines. I always find myself targeting leader oriented roles and I always strive to excel in my interests, as well as my career.

TECHNICAL SKILLS

React, JavaScript (ES6), Express/Node, Prisma, Python, Flask, SQLAlchemy, HTML, CSS

TECHNICAL PROJECTS

BOSS (Best One Stop Shop) - [Github](#) | [Demo](#)

- Utilized a mock Rest API (using json-server) to mimic an online storefront for purchasing cars..
- A user can purchase a car and list their own car for sale, all changes persisted using a json file as a database.
- HTML, CSS, JavaScript

Find That Recipe - [Github](#) | [Demo](#)

- Uses a mock Rest API in unison with a free public API, themealdb.com
- Allows the user to search through food recipes, filtered by a category, add recipes to a list of favorites, and publish their own recipe.
- React, JavaScript, HTML, CSS

Finance Tracker - [Github](#) | [Demo](#)

- Uses Python and SQLAlchemy to save users information
- A user can interact with the CLI to add or remove expenses, view their monthly savings, see a proper budget, and save their list of monthly expenditures to a PDF file.
- Python, SQLite, SQLAlchemy

Beat Buddy - [Github](#) | [Demo](#)

- Uses React, TailwindCSS, Flask, and SQLAlchemy
- Predicts the user's favorite song genre via a quiz, then allows users to generate random songs in that genre.
- Songs can be saved to the user's account, and can be posted on the forum page.
- The user can delete posts they've made, and view all other user's posts. A post can only be made to the user's assigned genre.

Launchpad - [Github](#) | [Demo](#)

- Uses React, TailwindCSS, ExpressJS, Prisma, and Supabase
- A user can schedule events to their own calendar, with time zone conversion implemented. (Ex. If the user's TZ changed, event times change)
- User's can also friend each other, friends can view each other's calendar, as well as send requests for events.
- An accepted plan request then gets added to both user's calendars, with time zone conversion.

This app is also mobile friendly

EXPERIENCE

AAMZ Services

UPS Store Associate

Allen, TX

07/2022 - 02/2023

- Assisted customers with shipping and packing, Notaries, and Insurance claims, as well as corporate returns to companies such as Spectrum, ATT, Apple, etc.
- Handled packages and mail for +-200 mailbox customers
- On some occasion, prepare the store to be opened at no later than 8:30AM

Marcus Fish Tanks

Contractor

Plano, TX

07/2020 - 04/2021

- Mixed a collection of 5 chemicals to make an aquarium plant fertilizer to be shipped and sold online.

- Assisted with the photo collection of various plants to be used as thumbnails on the storefront.
- Assisted in physical labor to move office buildings, unload shipments from pallets, and reformat the layout of the warehouse.
